Independent Auditors' Report

To the Board of Directors
Redwood Empire Food Bank
Santa Rosa, California

We have audited the accompanying statements of financial position of Redwood Empire Food Bank (a Nonprofit Corporation) (the "Food Bank") as of June 30, 2010 and 2009, and the related statements of activities, functional expenses, and cash flows for the years then ended. These financial statements are the responsibility of the Food Bank's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Redwood Empire Food Bank as of June 30, 2010 and 2009, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2010 on our consideration of Redwood Empire Food Bank's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audits.

Note A. Summary of Activities and Significant Accounting Policies

Redwood Empire Food Bank (the “Food Bank”) is a California nonprofit public benefit corporation whose mission is to end hunger in the community. Founded in 1987, the Food Bank has become Sonoma County’s largest hunger-relief organization. The Food Bank solicits donations from a wide variety of sources, including manufacturers, wholesalers, grocers, growers, governments, individuals and other nonprofit organizations. The Food Bank acquires food and distributes it through a network of charitable agencies and the Food Bank’s own food assistance programs. The Food Bank also provides food to member nonprofit organizations engaged in providing food to the needy of Lake, Mendocino, Humboldt, and Del Norte Counties. The member organizations help defray part of the operating costs by contributing a “shared maintenance” fee to the Food Bank.

In addition to operating its shared maintenance program, the Food Bank also obtains government assistance in the form of food commodities and reimbursements for distribution costs associated with the delivery of the food commodities. Revenue from government agency contracts is recognized when the related service has been provided.

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence or nature of any donor restrictions. Contributions are recognized when the donor makes a promise to make a gift to the Food Bank that is, in substance, unconditional. Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire in the fiscal year in which the contributions are recognized. All other donor-restricted contributions are reported as increases in temporarily restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets. Permanently restricted net assets represent assets that must be permanently maintained in accordance with the stated wishes of the donor. The Food Bank does not currently have any permanently restricted net assets.

Contributed services are recognized when the Food Bank would typically purchase such services if they require specialized skills and the contributor possesses such skills. Contributions recognized under these circumstances for 2010 and 2009 amounted to \$20,000 and \$61,038, respectively. Many individuals volunteer their time and perform a variety of tasks that assist the Food Bank in the performance of its mission; however, these services do not meet the criteria for recognition as contributed services. The Food Bank received over 70,000 volunteer hours during each of the fiscal years.

Cash and cash equivalents

Cash and cash equivalents include cash in banks, money market accounts and investments with original maturity dates of 90 days or less.

Pledges receivable

Pledges receivable consists of unconditional promises to give. The Food Bank uses the allowance method to determine uncollectible pledges receivable.

Note A. Summary of Activities and Significant Accounting Policies (continued)

Accounts receivable

Accounts receivable represent funds due from affiliated agencies for shared maintenance costs and from governments for contracted food distribution services. As of June 30, 2010 and 2009, management estimates that no reserve for losses on accounts receivable is necessary. A receivable is considered to be past due if any portion of the receivable balance is outstanding for more than 90 days. Interest is not charged on past due accounts receivable balances.

Food inventory

Food inventory consists of food items, both donated and purchased. Purchased food products are stated at the lower of cost (first-in, first-out method) or market, government commodities are carried in inventory at a cost figure provided by government agencies and the value of donated food is determined according to a composite per-pound rate determined by a cost study performed by Feeding America (formerly, America's Second Harvest). Donated food for 2010 and 2009 was valued at \$1.60 and \$1.58 per pound, respectively.

Property, equipment and improvements

Property, equipment and improvements are stated at cost less accumulated depreciation and amortization. Equipment depreciation is computed on a straight-line basis over the estimated useful lives of the assets, which range from 5 to 20 years. Buildings and related improvements are depreciated on a straight-line basis over the estimated useful lives of the assets, which range from 5 to 40 years. Motor vehicle depreciation is computed on a straight-line basis over the estimated useful lives of the assets, which range from 5 to 10 years. Donated property is recorded at its estimated fair value at the date of receipt. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose. Long-lived assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted support. Unless otherwise stated by the donor, the restriction expires when the asset is purchased.

The Food Bank reviews property and equipment for impairment whenever events or changes in circumstances indicate the carrying value of the property and equipment may not be recoverable. Recoverability is measured by a comparison of the recorded amount of the asset to the estimated undiscounted future net cash flows expected to be generated by the asset. During 2010 and 2009, there were no impairments identified.

Financial instruments

The carrying amount of financial instruments approximate fair value based on quoted market prices or discounted cash flow analysis for cash, restricted cash and other financial instruments. Financial instruments that potentially subject the Food Bank to concentrations of credit risk consist principally of cash, restricted cash, and receivables. The Food Bank places its temporary cash investments with high quality financial institutions. At times, cash investments may exceed insured limits.

For the Years Ended June 30, 2010 and 2009

Note A. Summary of Activities and Significant Accounting Policies (continued)

Functional allocation of expenses

The costs of providing programs and other activities have been summarized on a functional basis in the statement of activities and statement of functional expenses. Accordingly, certain costs have been allocated among the programs and support services based upon management estimates.

Advertising

Advertising costs are charged to operations when incurred. Advertising costs for 2010 and 2009 totaled \$33,992 and \$15,684 respectively.

Use of estimates

The preparation of financial statements requires management to make estimates based on management's knowledge and experience. Those estimates affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported support, revenue and expenses. Due to their prospective nature, actual results could differ from those estimates.

Income taxes

As a nonprofit corporation, the Food Bank is exempt from federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code and Section 23701(d) of the California Revenue and Taxation Code. These exemptions are subject to periodic review by the taxing authorities. Accordingly, a provision for federal or state income taxes is not recorded.

Reclassifications

Certain amounts in the 2009 financial statements have been reclassified to conform with the 2010 presentation with no effect on previously reported changes in net assets.

Note B. Pledges Receivable
