About Nation's Finest:

Nation's Finest, formerly known as Veterans Resource Centers of America, is a nonprofit that has been doing work in Veterans Services for over 48 years.

We were once recognized by the White House as a national model for providing community-based services to veterans and their families.

We are excited to announce our new assistance service, CCP, which will help all residents of Lake County who have been impacted by wildfires.

About the Crisis Counseling Assistance and Training Program (CCP):

OUR MISSION:

The CCP is funded by a grant from FEMA and CalMHSA. It assists individuals and communities in recovering from wildfires by helping survivors understand their reactions, mitigate stress and develop effective coping strategies. It also serves to provide residents with social support, promote resilience, and encourage linkages to resources, including long-term recovery groups.

WE PROVIDE:

- Information about referrals, financial aid, disaster assistance programs, as well as on wildfire relief programs at local, state, and federal levels
- Workshops on community resources, disaster education, peer support, and coping
- Non-clinical emotional and crisis support—up to 6 individual crisis counseling sessions

ELIGIBILITY:

Open to all Lake County residents who have been impacted in any way by wildfires (from 2017—present)
